

NURTURE RELATIONSHIPS THROUGH CARE GROUPS

The Care Group Leader works under the leadership of the Inreach Leader. Each Care Group Leader is responsible for helping the members assigned to his/her group develop and nurture relationships with one another. Please make certain that every member of your class is assigned to a care group.

The class Care Group Leader will ...

- lead his/her group in developing relationships and creating Christian fellowship and concern among group members.
- encourage prayer chains in his/her group.
- keep in regular contact with group members.
- call, visit, or send a note to absentees.
- reach out to prospects and new members to the class and make them feel welcome.
- report any member needs to the teacher, inreach leader, division director, or a church staff member.
- attend any training meetings and other church-wide events that will aid him/her in their spiritual growth and equip them to better perform their assigned task.
- cooperate with fellow class leaders in planning, doing, and evaluating inreach and outreach activities.
- always be positive and enthusiastic, never sharing any negative remarks about the class, teacher, members, or church.
